

Unicare Technologies Pvt. Ltd.

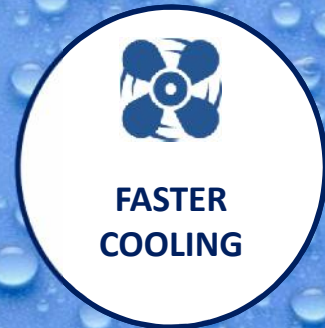

An ISO 9001-2008 Company

*Cool, Safe & Clean
Drinking Water*

**LOW POWER
CONSUMPTION**

**FASTER
COOLING**

**SAFE WATER
STORAGE**

**5 STAGE
FILTRATION
ADVANTAGE**

*RO (Reverse Osmosis)
With Water Cooler*

Office Address :
Gate No. 1327, Vrindavan Park,
Opp: Kamal Motors Pune - Nagar Road,
Wagholi, PUNE - 412 207.

Mobile No : +91 9823009394

LOW POWER CONSUMPTION
Superior quality grooved copper tubes
and a high efficiency compressor

AESTHETIC & COMPACT DESIGN
Allows the cooler to fit even in cramped
spaces

NO PLUMBING REQUIRED
Plant is plug and play type so plumbing
work is not required

5 STAGE FILTRATION ADVANTAGE
Sediment Filter, Active Carbon Filter,
Block Carbon Filter, Reverse Osmosis
(RO) & Ultra Violet (UV)

ECO FRIENDLY REFRIGERANT
CFC free refrigerant ensures that there
is no damage to the environment

FASTER COOLING
High energy efficient compressor
speeds up the cooling process

SAFE WATER STORAGE
Water tank material is SS 304 so it's
safe

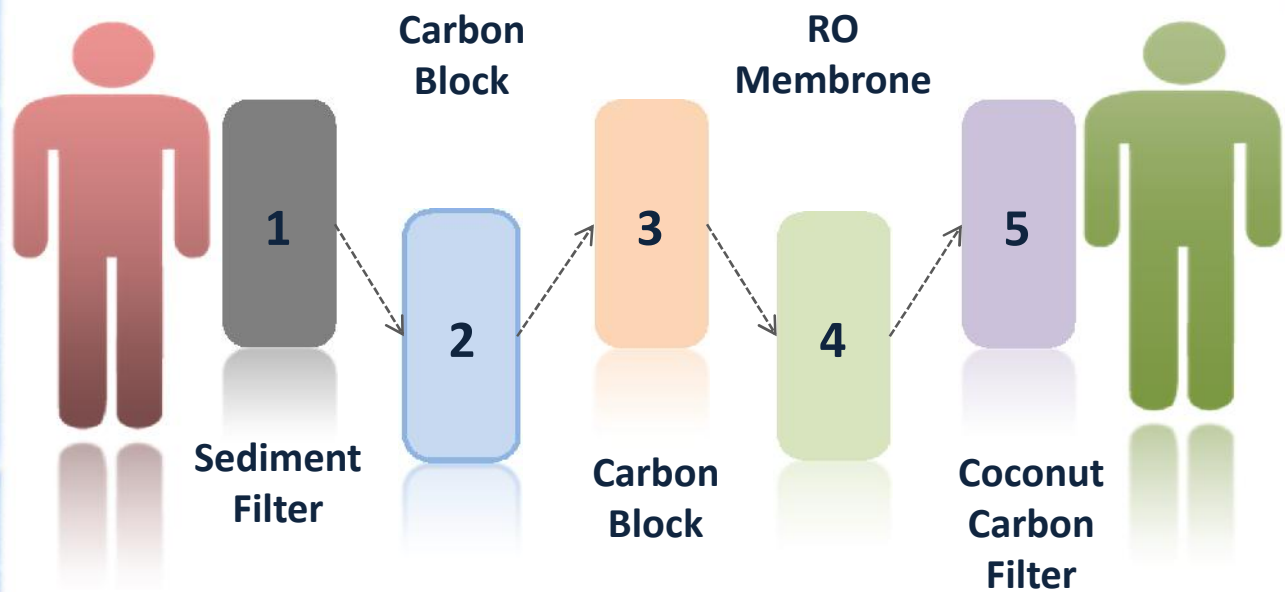

LONGER LIFE
With rugged stainless steel

COOLING RETENTION
A unique In-situ PUF insulation ensures that water remains cool
for a longer period in case of power outage and hence saves
power

Reverse Osmosis

Model :- 80/100 Water Cooler With Inbuilt Reverse Osmosis plant
RO Capacity 100LPH

ENERGY CONSUMPTION AS PER IS STANDERD

Size Cooling Capacity Rating Lit/Hr	Rate of Maximum Energy Consumption in Watts
5	175
10	270
15	300
30	400
40	575
60	775
80	950
120	1300
150	1550
225	2200

Here We can Choose 80Lit Cooling Capacity with 100Lit er Storage . Because of that we can save power consumption and store more water. By using this model min 150 People /hr can drink water. Body of this model is fully SS So it's safe storage for the water .

Drinking Water Requirements For Various Types of Services

Type of Service	Requirement
• Office / School	0.166lit/person/hr
• Light Manufacturing Company	0.5lit/person/hr
• Manufacturing Company	1.0lit/person/hr
• Restaurant	0.5lit/person/hr
• Hospital per bed per attendant	0.33lit
• Departmental Store Hostel And offices building lobbies	23-28lit/Hr /fountain

Company Profile

Established in the year 2007, we "Unicare Technologies Private Limited", are engaged in manufacturing and supplying

- Water Treatment Plants
- Revers Osmosis Systems
- Water ATM
- Water Cooler
- Water Vending Machine
- Filters and Sewage Treatment Plants
- Swimming Pool Filtration
- Water Softeners and Pumps

For all the machines and plants, we also offer installation and maintenance services. Our products are manufactured using optimum grade raw material that we procure from trusted market vendors. Offered in various specifications, our products are acclaimed for their quality, durability, robust construction, low power consumption and cost effectiveness.

We have earned a reputed position in the domain because of the efficient mentoring by 'Mr. Anand Raval'. Due to his extensive experience, compendious knowledge and smart business policies, we have been able to reach our zenith in the industry.

Thank You..
